

# Healing Through ART

QUEEN'S  
CANCER  
CENTERS

*For those living with or who have been touched by cancer.*

## What gives your cancer journey meaning?

Let the magic of art connect, inspire, and help you and your loved ones on your journey through cancer. Dedicated to helping and treating the whole patient, **Queen's Oncology Service** invites those living with or have been touched by cancer to our **Healing Through Art** program.

This program works in small group settings offering cancer patients and their families the opportunity to learn about their own creative resources as they meet the challenges of diagnosis, treatment and survivorship. This program is made possible by **Queen's Cancer Centers**.

Patients will work with **Jocelyn A. Cheng**, an oncology nurse, cancer survivor and successful Hawai'i artist who used art as a positive way to express herself during her own cancer experience.

**To register, email [jtokuhara@queens.org](mailto:jtokuhara@queens.org).**

Let us know if you are a new participant and you will be added to the email list. Information on supplies and a Webex link will be sent via email prior to each session.

For more information, ask your cancer nurse specialist.

---

**TUE., JULY 7**  
10:00 am - 12:00 pm

### **Succulent Care & Propagation (Webex online)**

Learn how to care for succulents and create your own propagated plant starters.
