

# COMMUNITY HEALTH NEEDS ASSESSMENT

---

As the only hospital serving the island's 7,500 residents, Molokai General Hospital (MGH) provides services to patients regardless of their ability to pay.

In FY22, 34 patients received healthcare services free of charge. Of those 34 unduplicated patients who applied for financial aid, 13 (38%) identified as Native Hawaiian and four were uninsured.

---

## NOTABLE ACHIEVEMENTS IN FY22 FOR MGH INCLUDE:

- As the primary resource on Molokai for COVID testing and vaccinations, MGH administered a total of **4,054** COVID vaccinations and an estimated **315** flu shots.
- Provided **803** visits for wound care in the Wound Clinic, of which **98** patients were served, **56%** of whom identified as Native Hawaiian/Pacific Islander.
  - The addition of internist Dr. Randi Olds has increased access to primary care on Molokai.
  - Though only practicing for two months in FY22, Dr. Olds served **123** patients, **57%** of whom identified as Native Hawaiian/Pacific Islander.
- In total for FY22, Dr. Olds had **140** face-face encounters (including inpatient visits), and **64%** of those encounters were with patients who identified as Native Hawaiian/Pacific Islander.

## ADDITIONALLY, MGH'S RURAL HEALTH CLINIC ACHIEVED THE FOLLOWING IN FY22\*:

**7,338** face-face provider visits (includes inpatients)

**7,247** face-face provider visits (does not include inpatients)

**9,373** total visits, including nurse visits

**62%** of the total visits were with patients who identified as Native Hawaiian/Pacific Islander

*\*Please note that these outcomes do not include the Emergency Department, imaging or any other part of MGH.*
