“Just as Queen Emma and King Kamehameha IV made known in 1859, philanthropy is essential to the hospital’s ability to care for our community. It goes without saying that I have the utmost respect for all of the caregivers who strive to provide great care every single day. I hope this gift inspires others to give, knowing that together, we can ensure Queen’s remains a place of healing for generations to come.”

Candice Uytengsu

Transformational Donor
